

Noxious Weed Pictures & Descriptions

Garden

Helleborine:

Grows about 9.8 - 31.5" tall. Plants are sparsely to densely hairy.

Flowers light pinkish-greenish color, somewhat one-sided in arrangement. Each flower has three light greenish sepals and three petals, 0.4". Under each flower is a small lance-shaped to linear, leaf-like bract that is longer than the flower.

Leaves clasping stem, alternate arrangement, elliptic (oval to narrow oval) to lance shape in outline, 1.5 - 7 " long by 0.6 - 3.3 " wide.

Noxious Weed Pictures & Descriptions

Capsule, egg-shaped, attached at the narrower end, 0.4 - 0.6" long, fairly hairless to hairy.
